Education

BRCM College of Engineering and Technology, Bhiwani, Haryana **Sep 2022 – May 2026**
Bachelor of Technology in Computer Science (CGPA – 8.6/10.0) *Bhiwani, Haryana*

Pitts Modern School, Gomia, Bokaro, Jharkhand **Aug 2020 – May 2022**
Intermediate; CBSE Board (94%) *Bokaro, Jharkhand*

Projects

Interview Edge AI: AI-Powered Interview Preparation Platform | Next.js 15, React 19, Vapi AI, Google Gemini AI, Firebase Link

- Engineered a cutting-edge web platform that simulates realistic job interviews using **Vapi AI voice agents** for natural conversation and **Google Gemini** for intelligent question generation**.**
- Developed a comprehensive feedback system that analyzes transcripts across 5 dimensions (Technical, Communication, etc.), providing numerical scores and actionable insights via **NLP-based semantic analysis.**
- Achieved a **4.3/5 user satisfaction rating**, with tested users showing an **86% increase in interview confidence** during evaluation.

MindMapify: Full-Stack Web Application for Interactive Mind Maps | Python, FastAPI, React.js Link

- Developed a full-stack web app to transform text notes/PDFs into interactive, zoomable mind maps using **FastAPI, spaCy, and React.js.**
- Built a dynamic UI with **Mermaid.js and Tailwind CSS,** achieving 25% productivity improvement in user testing.
- Implemented **NLP-based concept extraction** and PDF parsing for accurate diagrams.

Blood Donation Tracker | React.js, Firebase (Auth + Firestore), MUI, PrimeReact Link

- Built a responsive web app to streamline **blood donation tracking** with real-time user authentication and donor search features.
- Integrated **Firebase Auth** for secure login/signup and Firestore for structured user data management.
- Designed modern, animated UI using **Material UI, PrimeReact, and AOS.js** to enhance user experience across devices.

Technical Skills

Programming: Python, Java, C/C++, HTML, CSS, JavaScript, React, Data Analytics
Technologies/Frameworks: Tkinter, MySQL, Git/GitHub, spaCy, PyMuPDF, FastAPI, Mermaid.js, Firebase
Coursework: DSA, OOPs, DBMS
Soft skills: Leadership, Public Speaking, Team Collaboration

Experience & Internship

Full Stack Developer Intern | Solitaire Infosystems Pvt. Ltd., Mohali (June 2025 – August 2025)

- Developed and deployed a responsive **Blood Donation Tracker** using **React.js and Firebase**, enabling user authentication, donor search, and admin-ready architecture.
- Implemented secure login/signup flows with Firebase Auth and stored structured user data using Firestore. Designed modern UI components with Material UI, PrimeReact, and AOS.js, ensuring a seamless, animated experience across devices.

Programming with Python Training Intern | Internshala Trainings & NSDC

- Completed a government-recognized Python course, mastering OOP, PyQT GUI design, and SQLite integration.
- Developed a capstone project and 5 assignments, applying Python to GUI and database tasks.

Organizing & Leadership Achievements

- **Class Representative, CSE Society**: Led academic and student engagement activities, organizing major events like Engineers' Day and Alumni Meet for 100+ participants.
- **Event Anchor & Public Speaker, CSE Society**: Anchored technical and cultural events, delivered tech presentations, and honed public speaking skills.
